Yorkshire,

Telephone: 0113 380 5655

Leeds Development Education Centre is an educational charity which has been raising awareness of global sustainable development issues with people in West Yorkshire for over 30 years. We are the leading provider of global learning services in West Yorkshire with one of the biggest selections of citizenship resources on topics such as fair trade, human rights, sustainability and social justice. Our hands on, engaging workshops on Fairtrade and other topical global development issues are differentiated for all Key Stages. 100% of our workshops have been rated good or outstanding by teachers. Our workshops develop school SMSC requirements and enhance many curriculum areas (English, Maths, Art, Geography..) as well as offer a unique contribution towards Enrichment Days. Workshops: NEW! Agents of Change English, Citizenship Differentiated for KS2 and KS3 This workshop uses case studies of local as well as famous people around the world who have taken action to improve the world we live in. It uses film, art and the Global Advocate exhibition to engage the children with the issues. Perfect for stimulating discussion on active citizenship, racial equality, fair trade and makes a great addition to Black History Month. Includes one week's free hire of the Global Advocate Exhibition.

\* Includes one week free hire of the Global Advocate exhibition! \*NEW! Climate

Justice Champions!

Science, Technology, Maths

Differentiated for KS3, KS4 and Post 16 This creative workshop challenges pupils to create floating gardens, making use of Science, Technology, Engineering and Mathematics (STEM) skills. The workshop demonstrates how small, innovative solutions can make big differences to the lives of those affected by our changing

climate.FIFA Fever!

Maths, Geography, Citizenship

Differentiated for KS2, KS3 and Post 16In this popular workshop, pupils work

together in small groups to earn resources for their 'village'. Role-playing as football stitchers, pupils love this fast-paced game as they try to beat the banker! Through engaging debate, critical thinking, and personal reflection, pupils have the opportunity to recognise their own power to make positive change in the world. This workshop also utilises inspiring video footage of real football stitchers. Beyond

Chembakolli

Geography, Art and Design, English

Differentiated for KS2 and KS3Want some inspiration in presenting modern, urban

India in a child friendly way? This popular workshop uses photos and video shot by LDEC staff and includes their personal stories of visiting India. The videos contain interviews with children from a range of different backgrounds living in Mumbai, which relate to children's own experiences in the UK. The session culminates by

creating a beautiful Indian icon from re-used materials.Be a Cocoa Farmer

Geography, Citizenship, English

Differentiated for KS1, KS2 and KS3This workshop, created in collaboration with the

makers of Dubble Bar, uses imaginative props to teach students about the life of Cocoa farmers in Ghana, how the cocoa bean is produced, transported and processed, and how buying Fairtrade chocolate makes a difference to small scale farmers in poorer countries. The workshop uses engaging props, role play and art to enable the children to empathise with cocoa farmers and understand the journey

from Bean to Bar. Cotton onto Fairtrade

Geography, Citizenship, English, Design and Technology

Differentiated for KS1, KS2 and KS3This fun and engaging workshop uses the

creation of sock puppets to teach students about the journey of cotton, the benefits of Fairtrade and the lives of the people involved in the supply chain. Children build their confidence, creativity and presentation skills by presenting their cotton

character to the rest of the class.How cool is your mobile phone?

Geography, English, Citizenship

Differentiated for KS3 and KS4Lively and engaging workshop explores issues of

child labour, conflict and the fate of gorillas in the Congo as a consequence of coltan mining. It uses film and creative activities to focus on sustainable

development and global citizenship, and provokes debate about the consequences of our lust for the latest handset! Give Me Some Credit  
English, Geography, Citizenship, PSHE  
Differentiated for KS3, KS4 and Post-16  
Debt. It's a big scary word. But there is more to debt than mortgages and student loans. Put the pieces together to learn how global finance affects individual lives in developing nations, and critically assess the fairness of international government relationships. Testimonial "The mix of reflection, information and hands on practical activity was effective. Leeds DEC is invaluable in coming up with new ideas to extend and develop Fairtrade in school" - Teacher, Ashville College

"That was really exciting! Can I stay all day?" - Year 11 student, Ralph Thoresby

"Leeds DEC does a terrific job in reminding us all of what we share in common on this small and fragile planet of ours. The fight against poverty and for justice is one we should all get involved in" - Leeds DEC patron Hilary Benn, MP for Leeds Central
